

## Feature Description

Working with the Farmdeck app, you can see your farm in real-time. Draw in paddocks, have an overview of all your Farmdeck sensors and see where all your mobs are on one dashboard. You can also store information such as crop type, sow date, planned harvest date and spray and treatment records on Farmdeck. Dated records are logged each time you make updates to paddocks using the Farmdeck app, including paddock treatments, livestock movement, and crop management.

## Features

- Keep records of past and upcoming soil and crop treatments
- Track information such as crop type, sow date, planned harvest date, spray and treatment records and key dates.

## Applications

- Manage and plan crops
- Manage and plan livestock movements
